Dear Kristan,

***Quarterly Progress Update – February 2024***

Health Translation Hub Stage 2 construction works remain in progress. The project team are continuing to erect the structure with the use of two tower cranes and two concrete boom pumps. Current works include the installation of perimeter screens and continuation of structural concrete pours for the building's suspended slabs, columns, and cores. Piling works, in-ground services and basement slabs are predominantly complete.

Please see below, current image of the site.

Sincerely,

Justin Sut  
Project Manager
